

A man and a woman are in a meeting, looking at a whiteboard. The man is pointing at the board with a blue marker. The whiteboard has several sticky notes and some handwritten text. The woman is looking at the man and has her hand on her chin, appearing thoughtful.

**OXID PARTNERS SHAPE TRADE
FOR THE DIGITAL WORLD**

Become an OXID Partner

WHY IT'S WORTH BECOMING AN OXID PARTNER

The OXID eSales Partner Programme supports agencies and integrators in the acquisition and implementation of demanding e-commerce projects. We are always on the lookout for new agencies who want to work with us on an equal footing to develop digital solutions for the business models of our mutual customers. As an OXID Solution Partner, you receive training and co-marketing offers, as well as sales-related and technical support. You contribute your own ideas to our product through the Partner-GitHub Repository. It couldn't be more transparent. You know the next development steps and can specifically prepare for updates with your own modules and interfaces.

SATISFY CUSTOMER REQUIREMENTS

We offer you the platform and extensions required to take your customer's successful business model and existing system landscape and develop a future-proof solution.

IN TIME & IN BUDGET

OXID offers a rapidly adaptable, market-tested and high-performance e-commerce platform with tools for project planning that you can rely on.

TRAINING, SUPPORT & DOCUMENTATION

You have access to technical know-how: the academy, technical support, documentation, SDK and other developer resources. Everything you need for successful project implementation.

GREATER THAN THE SUM OF ITS PARTS

The days of the 'one size fits all' e-commerce solution are over. It's all about having access to experts with experience in specific technologies, industries and requirements. That is what we offer at OXID.

ALWAYS THERE FOR YOU

A partnership with OXID eSales is based on cooperation on an equal footing. If an offer or a project can be improved with our sales-related or technical support... We are there for you.

TOGETHERNESS IS PART OF THE PROGRAMME

All of the measures and offers in the Partner Programme are aimed at supporting our partners' business models. We involve you in our sales processes so that we can benefit our customers together.
